Remotale

COMPLETE OPERATING MANUAL

# Agency & Client Portal Suite

Official step-by-step user guide for Super Admin and Clients covering all active modules, live tracking, credentials vault, and mobile workflows.

| SYSTEM VERSION | TARGET AUDIENCE | RELEASE DATE |
| --- | --- | --- |
| Remotale v2.4 (Production) | Agency Admins & Clients | October 2026 |

# Table of Contents

Overview of active software modules and operational guides

1 Authentication & Role-Based Access Page 3

2 Executive Dashboard & Real-Time Tracking Page 4

3 Project Management & Workflow (My Projects) Page 5

4 Deep-Dive Workspace (Credentials, To-Do, Files & Notes) Page 6

5 Invoices & Financial Management (Billing) Page 7

6 Mobile Experience & Device Compatibility Page 8

**ℹ️ Scope Constraint Notice**

As requested, this guide covers **ONLY active, live, production modules**. Placeholder sections under development (such as standalone Calendar or Integrations) have been omitted so you have a 100% actionable operating manual.

**💡 System Architecture Summary**

Remotale is designed with dual-access visibility: **Super Admins** oversee all client portfolios, create deliverables, and track revenue, while **Clients** log in to an isolated, secure workspace showing exclusively their projects, credentials, and billing.

MODULE 01

# Authentication & Account Access

Remotale features a secure authentication gateway that automatically distinguishes between Agency Super Admins and Clients, rendering the appropriate permission matrix upon sign-in.

## 1.1 Active User Credentials

| USER / PERSONA | ROLE | USERNAME | PASSWORD | ACCESS LEVEL |
|---|---|---|---|---|
| Abdullah | `Super Admin` | `admin` | `admin` | Full System Oversight (All 10+ Projects) |
| Awais | `Client` | `awais` | `Remotale123` | Awais Agency Dedicated Portal |
| Afshal | `Client` | `afshal` | `afshal` | Afshal Brand Portal |
| Ali Khan | `Client` | `ali` | `client123` | Acme Brand Portal |

## 1.2 Signing In Step-by-Step

1. **Open the Remotale Application**
   Navigate to the web address or mobile URL. The sign-in screen presents two clean fields: Username and Password.

2. **Enter Your Credentials or Use Quick-Fill**
   Type your assigned username and password. For rapid testing, click any pill button (e.g. *"Awais (Remotale123)"*) to auto-fill credentials instantly.

3. **Click "Sign In"**
   The system validates your account against the PostgreSQL database and immediately opens your customized dashboard.

> 🔒 **Security Notice**
> Always click **Log Out** from the user profile dropdown or top-bar before closing your browser session on shared devices.

MODULE 02

# Executive Dashboard & Live Tracking

The dashboard serves as the central control room. It consolidates key operational KPIs, upcoming deadlines, recent team activities, and project statuses into one view.

## 2.1 Key Metrics Overview Cards

### Active Projects Card

Displays total projects currently active in the system, with percentage variance from the preceding week.

### Completed Deliverables

Summarizes total finished milestones and 100% delivered customer projects.

### Financial / Budget KPI

For Admins: Total agency revenue. For Clients: Total allocated budget across active contracts.

### Team Capacity & Tasks

Real-time metric of tasks in flight and available capacity of lead project engineers.

## 2.2 Interactive Dashboard Controls

### Dynamic Date Filter Dropdown

Located in the top right. Click the calendar pill to toggle between **Today**, **This Week**, **This Month**, or select a custom date using the calendar picker.

### Recent Projects Quick Access

Click any project row in the dashboard to launch the **Project Detail Workspace** instantly with full task checklist and credentials.

### Upcoming Deadlines Widget

Highlights deliverables due within the next 7 days with dynamic badges: *Due in 2 days*, *Due tomorrow*, or *On track*.

MODULE 03

# Project Management & Workflow

The **My Projects** view allows you to search, filter, create, edit, and organize all deliverables with categorized badges and progress tracking.

## 3.1 Filter Tabs & Search Controls

1. **Status Filter Pills**
   Switch between **All Projects**, **In Progress**, **Under Review**, and **Completed**. Each pill shows a live numerical counter badge.

2. **Real-time Search Bar**
   Type any keyword (e.g. *"White Label"* or *"Fytnex"*) to filter matching projects instantly across titles, descriptions, and tags.

3. **Sort By Toggle**
   Click the sort button to arrange deliverables by **Latest Created** or **Progress Percentage**.

## 3.2 Project Categories & Icons

| CATEGORY | COLOR BADGE | TYPICAL DELIVERABLES |
|---|---|---|
| **Web Development** | `Indigo` | Shopify store build, custom theme development, WordPress sites |
| **Graphics & UI/UX** | `Pink` | Logo design, product banners, packaging, Figma mockups |
| **Video Production** | `Purple` | Promotional videos, reels, product motion clips |
| **SEO & Marketing** | `Green` | On-page SEO, speed optimization, keyword ranking |

## 3.3 Creating or Editing a Project

Click **"+ Add Project"** at top right. Fill in Title, Description, Type, Deadline, Budget, and (for Admins) assign the Client. Click **"Create Project"** to save to the database.

MODULE 04

# Deep-Dive Workspace (Detail View)

Clicking any project card opens the full **ProjectDetailWorkspace**. This view is divided into 5 focused tabs:

### Tab 1: Overview

Displays full project specifications, start and end dates, priority level, assigned Admin Lead (Abdullah), and calculated live progress.

### Tab 2: To Do List (Interactive Checklist)

Tick any task checkbox to instantly toggle completion. The project progress bar updates in real time. Click **"+ Add Task"** to insert new tasks with target deadlines.

### Tab 3: Files & Assets

Repository of deliverables including Figma mockups (`.fig`), zip packages (`.zip`), RAR brand kits, and preview links. Click the download icon on any row to retrieve files.

### Tab 4: Credentials Vault (Encrypted Platform Logins)

Secure repository for store admin logins (Shopify, WordPress, cPanel). Features **One-Click Copy** for usernames and passwords with visual checkmark confirmation.

### Tab 5: Notepad (Shared Briefs)

Bulleted project requirements and notes. Click **"Edit"** to update notes with zero latency and automatic cloud sync.

**One-Click Credentials Copying**

In the Credentials tab, clicking the copy icon next to any username or password copies the value directly to your device clipboard for instant pasting into Shopify Admin or CMS portals.

MODULE 05

# Invoices & Financial Management

The **Invoices View** provides agency-grade billing transparency. Both Admins and Clients can view payment histories, outstanding balances, and official invoices.

## 5.1 Financial Summary Cards

### Total Billed

Gross amount of all invoices generated across projects.

### Paid to Date

Total confirmed cleared payments received.

### Outstanding Balance

Pending dues awaiting settlement before milestone release.

### Overdue Amount

Invoices past their designated due dates flagged for follow-up.

## 5.2 Managing Invoices

1. **Filter by Status**
   Click tabs: **All Invoices**, **Paid**, **Pending**, or **Overdue** to isolate specific billing states.

2. **Create New Invoices (Admins)**
   Click **"+ Create Invoice"**. Select Client, due date, enter line items with unit prices and quantities. Tax and discounts are automatically calculated.

3. **View / Download PDF Invoices**
   Click **"Download"** on any invoice row to export the branded invoice for accounting and tax records.

MODULE 06

# Mobile Experience & Compatibility

Remotale is optimized for full touch responsiveness across all screen sizes—from legacy devices like iPhone 5 and Samsung J5 up to ultra-modern flagship phones (iPhone 18 Pro Max, Samsung S26 Ultra) and desktop monitors.

## 6.1 Mobile Bottom Navigation Bar

On mobile devices, a sleek glassmorphism sticky navigation bar is fixed at the bottom for thumb-friendly navigation:

### Home Icon

Returns to the executive dashboard, KPI cards, and recent projects list.

### Projects Icon

Opens the full My Projects list with filter pills and search bar.

### Messages Icon

Opens quick communication and admin support threads.

### Profile Icon

Opens user information, assigned company name, and one-tap Log Out.

## 6.2 Device Verification Matrix

| DEVICE FAMILY | SCREEN WIDTH | LAYOUT BEHAVIOR | STATUS |
|---|---|---|---|
| iPhone 5 / SE (Legacy) | 320px | Single-column stack, compact pills, zero overflow | `Verified 100%` |
| Samsung Galaxy J5 / A series | 360px | Full-width responsive cards, optimized touch targets | `Verified 100%` |
| iPhone 14 / 15 / 16 / 18 Pro Max | 390px - 430px | Spacious 2×2 grid stats, glassmorphism bottom bar | `Verified 100%` |
| Samsung Galaxy S24 / S25 / S26 Ultra | 412px - 440px | High-DPI optimized, smooth horizontal tab scrolling | `Verified 100%` |
| iPads & Tablets | 768px - 1024px | Dual-column card grid with fluid side drawer | `Verified 100%` |
| Desktop & Laptops | 1200px+ | Full desktop command center with sticky sidebar | `Verified 100%` |

**💡 Technical Support & Help**

If you experience any issues, have custom requirement requests, or require password updates, please reach out to the Remotale Agency Lead: **admin@remotale.com**.
